

FB-10R

MUSHROOM EXIT PUSH

Product Features

- **Durable 304 stainless steel panel and metal button** — corrosion-resistant and ideal for commercial spaces.
- **NO/NC/COM output contacts** — supports normally open, normally closed, and common outputs for integration with access control systems and electric locks.
- **Mushroom-Style Head** - Large, convex actuator — easy to hit quickly. Visible and ergonomic, even with gloves. Typically Red to indicate safe action / exit / go
- **Mechanical Durability.** Designed for frequent use — mechanical life around 500,000+ presses

Technical Specification

| Model | FB-10R |
|-----------------------|---------------------------------------|
| Material | 1.6mm Thick 304 Stainless steel |
| Button material | 304 stainless steel, Red Mushroom Cap |
| Contact Rating | 3A 36VDC Max |
| Output Contact | NO/NC/COM |
| Operating humidity | 0-95% (RH) |
| Operating Temperature | -20°C~+55°C(14-131F) |
| Mechanical Life | 500,000 Tested |
| Dimensions | 86L*86W* |
| Weight | 0.12KG |
